**Notification of Reason for Refusal**

Patent Application No.	2003-072026
Drafting Date	February 22, 2008
JPO Examiner	Daigoro BANDO      3241 5C00
Agent / Applicant	Shigenao BETSUEKI
Applied Provision	Patent Law Section 29(2)

This application is refused for the reason mentioned below. If the applicant has any argument against the reason, such argument should be submitted within 60 days from the date on which this notification was dispatched.

Reason

The inventions in the claims noted below of the subject application are unpatentable under Patent Law Section 29(2) since they could have been easily made by persons who have common knowledge in the technical field to which the inventions pertain, on the basis of the inventions described in the publications below which were distributed prior to the filing of the subject application in Japan or other countries.

Note (The list of cited documents etc. is provided later)

[Claims 1-6 and 9-13]

Cited Documents 1-3

Cited Document 1 discloses an electronic conference system having an access point, a computer, and a display which are premise of the present invention. In particular, see Fig.1A.

Moreover, in general, as disclosed in the paragraph [0023] of the cited document 2, it is well-known to control a power of devices being simultaneously used in conjunction with each other. Thus, a person in the art can easily make an arrangement of controlling power of a display, an access point, and a computer in conjunction with each other based on the invention of the cited document 1. Moreover, it is only a design matter to determine an order of operations.

Moreover, as disclosed in paragraphs [0035] and [0037] of the cited document d, it is well-known to display an error message or shutdown a power in the case where an input is not made after a predetermined time period.

Moreover, a wireless communication is only a design matter for a person in the art.
